

pfSense - Feature #10079

Update services_captiveportal_hostname_edit.php?zone=&act=add to include a link to The pfSense Book, rather than the community maintained documentation

12/28/2019 10:43 PM - Anonymous

Target version:		Release Notes:	
Plus Target Version:			
Description			
<p>Presently, at services_captiveportal_hostname_edit.php?zone=, there is a help button (circle with question mark inside of it) that links to the public, community maintained documentation. However, the pfSense Book documentation is more informative and also publicly available.</p> <p>Link currently points to: https://docs.netgate.com/pfsense/en/latest/captiveportal/captive-portal.html</p> <p>Link should point to: https://docs.netgate.com/pfsense/en/latest/book/captiveportal/allowed-hostnames.html</p> <p>For example, the pfSense book includes information that the current link does not.</p>
