

pfSense - Feature #10129

Update vpn_openvpn_csc.php?act=new to include a link to The pfSense Book, rather than the community maintained documentation

12/28/2019 10:57 PM - Anonymous

Target version:			

Description

Presently, at `vpn_openvpn_csc.php?act=new`, there is a help button (circle with question mark inside of it) that links to the public, community maintained documentation. However, the pfSense Book documentation is more informative and also publicly available.

Link currently points to: <https://docs.netgate.com/pfsense/en/latest/vpn/openvpn/index.html>

Link should point to: <https://docs.netgate.com/pfsense/en/latest/book/openvpn/index.html>

For example, the pfSense book includes information that the current link does not.
