Assignee:		% Done:	0%
Category:	Traffic Shaper (ALTQ)	Estimated time:	4.00 hours
Target version:		Release Notes:	
Plus Target Version:			
Description			
Please update traffic shaper wizard's services/games to relevant services/games such as: (just a few examples. but I'm sure we could create a list of recent software in the past 10 years and sort it by popularity)			
<ul style="list-style-type: none">• Discord• Telegram Messenger• Slack• Netflix• Amazon Prime Video• Disney Plus• Hulu• Heroes of the Storm• GTAV• Dota 2• Smite• Foreniteetc etc etc.			
And remove old ones like:			
<ul style="list-style-type: none">• AIM• Half Life 1• Napsteretc			

History

#1 - 05/17/2020 01:51 AM - tag wolf

And PLEASE don't forget Twitch and other upload heavy streaming services.

#2 - 05/18/2020 09:15 AM - Jim Pingle

- *Category set to Traffic Shaper (ALTQ)*

- *Status changed from New to Rejected*

The traffic shaper wizard services list works on lists of ports, and most if not all those are web-based services which cannot be differentiated by port numbers.

To do anything like that you'd need pfBlockerNG populating aliases with info from things like AS lists or similar tactics, and even that wouldn't be accurate. Lots of these use CDNs which make it even less likely to work accurately.

If there are specific games which use specific ports which are not covered by the wizard, make individual feature requests for them with the details of how they would be identified at the firewall level.
