

pfSense - Feature #10811

AutoConfigBackup should randomize scheduled backups.

08/03/2020 08:29 AM - Chris Linstruth

Status:	Pull Request Review	Start date:	08/03/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Backup / Restore	Estimated time:	0.00 hour
Target version:	2.5.next		

Description

It looks like the backup server is becoming occasionally overloaded on the hour because all backups around the world run at minute zero.

Being able to set the minute of the cron job or, probably better, having the system select a random minute to run the job would probably be all that is needed.

History

#1 - 09/08/2020 01:53 PM - Vincent Jansen

Proposing: 503 Service Unavailable with randomized retry between 5-10min or implement serverside async queueing.

#2 - 11/27/2020 06:02 AM - Viktor Gurov
