

pfSense - Bug #10949

PPPoE server can't be added

10/03/2020 06:46 AM - Danilo Zrenjanin

Status:	Resolved	Start date:	10/03/2020
Priority:	Low	Due date:	
Assignee:	Renato Botelho	% Done:	100%
Category:	PPPoE Server	Estimated time:	0.00 hour
Target version:	2.5.0	Affected Version:	2.5.0
Plus Target Version:		Affected Architecture:	
Release Notes:	Default		

Description

I tested adding a PPPoE server on the latest snapshot.

```
2.5.0-DEVELOPMENT (amd64)
built on Sat Oct 03 00:53:52 EDT 2020
FreeBSD 12.2-STABLE
```

Once it's enabled and set, clicking the Save button returns back to **Services/PPPoE Server** without any listed PPPoE server.

Revision 1d1b49cd - 10/03/2020 07:05 AM - Viktor Gurov

PPPoE server add fix. Fixes #10949

History

#1 - 10/03/2020 07:06 AM - Viktor Gurov

Fix:

<https://github.com/pfsense/pfsense/pull/4471>

#2 - 10/05/2020 07:59 AM - Jim Pingle

- Status changed from New to Pull Request Review

#3 - 10/05/2020 05:37 PM - Renato Botelho

- Status changed from Pull Request Review to Feedback

- Assignee set to Renato Botelho

- % Done changed from 0 to 100

PR has been merged. Thanks!

#4 - 10/08/2020 12:53 PM - Danilo Zrenjanin

Patch works fine.

Though it is not working in the latest snapshot without the patch even though the PR has been merged 3 days ago.

Please check.

#5 - 10/08/2020 03:31 PM - Renato Botelho

- Status changed from *Feedback* to *Resolved*

Please check.

Builders are stopped due to integration of most recently ports quarterly branch. Thanks for validating the fix.

#6 - 10/10/2020 12:47 PM - Danilo Zrenjanin

Tested on:

```
2.5.0-DEVELOPMENT (amd64)
built on Sat Oct 10 01:03:57 EDT 2020
FreeBSD 12.2-STABLE
```

It works fine even without the patch. Ticket resolved.
