

pfSense - Bug #11061

CARP rules show up as "part" of the snort package in rules.debug

11/12/2020 03:47 AM - Florian Apolloner

Status:	Resolved	Start date:	11/12/2020
Priority:	Very Low	Due date:	
Assignee:	Renato Botelho	% Done:	0%
Category:	Rules / NAT	Estimated time:	0.00 hour
Target version:	2.5.0	Affected Version:	2.4.x
Plus Target Version:		Affected	All
Release Notes:	Default	Architecture:	

Description

This is only a cosmetic change, but it adds a header to the generated rules to separate it from the snort package. See <https://github.com/pfsense/pfsense/pull/4486> for details.

History

#1 - 11/12/2020 07:38 AM - Renato Botelho

- Category set to Rules / NAT
- Status changed from New to Feedback
- Assignee set to Renato Botelho
- Target version set to 2.5.0

PR has been merged. Thanks!

#2 - 11/12/2020 07:41 AM - Florian Apolloner

Thank you very much.

#3 - 11/21/2020 06:43 AM - Danilo Zrenjanin

- Status changed from Feedback to Resolved

Tested on:

```
2.5.0-DEVELOPMENT (amd64)
built on Sat Nov 21 01:03:32 EST 2020
FreeBSD 12.2-STABLE
```

Indeed it looks better now:

```
# Snort package
block log quick from <snort2c> to any tracker 1000000118 label "Block snort2c hosts"
block log quick from any to <snort2c> tracker 1000000119 label "Block snort2c hosts"
```

```
# CARP rules
block in log quick proto carp from (self) to any tracker 1000000201
pass quick proto carp tracker 1000000202 no state
```

Ticket resolved.
