<b>Target version:</b>	2.1	<b>Affected Architecture:</b>	
<b>Affected Version:</b>	All		

#### Description

When adding a new NAT rule based on another NAT rule, it adds the new one to the bottom of the list. Doesn't matter much, but it should have the same behavior as on firewall rules where it adds it beneath the rule it was based on.

#### Associated revisions

##### Revision 3202763c - 02/21/2013 01:15 PM - Renato Botelho

Add NAT rule based on NAT rule below it instead of at the bottom of the list. Fixes #1118

##### Revision 5d764d64 - 02/21/2013 01:30 PM - Renato Botelho

Insert new NAT rules on the top of the list when top plus icon is used. Fixes #1118

#### History

##### #1 - 02/21/2013 01:12 PM - Renato Botelho

- Assignee set to Renato Botelho
- Target version set to 2.1

##### #2 - 02/21/2013 01:17 PM - Jim Pingle

Slightly related: using the + at the top of the NAT rules list adds the rule to the bottom, not the top. (could make a separate ticket for that but it may be the same/similar root cause).
