

pfSense Packages - Feature #11210

3rd party rulesets

01/01/2021 10:47 AM - Viktor Gurov

Status:	New	Start date:	01/01/2021
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Suricata	Estimated time:	0.00 hour
Target version:			
Description			
It would be useful to add the ability to use any additional third party rulesets, and download/update them just like the current rulesets			
For example https://sslbl.abuse.ch/blacklist/#ssl-certificates-suricata or https://github.com/ptresearch/AttackDetection
