Target version:		Affected Architecture:	All
Affected Version:			

Description

Hi, if export OpenVPN config via pfSense Client Export Utility with disabled "Legacy Client" on latest tunnelblink on import tunnelblink fallback to OpenVPN 2.3.18 due to tun-ipv6 line in config as it was removed in OpenVPN 2.4 already and do not use OpenVPN 2.5.

History

#1 - 01/04/2021 09:31 AM - Jim Pingle

- Project changed from pfSense to pfSense Packages
- Category changed from OpenVPN to OpenVPN Client Export
- Assignee set to Jim Pingle
- Target version deleted (2.5.0)

#2 - 01/04/2021 09:34 AM - Jim Pingle

- Status changed from New to Feedback

Fixed in v1.5_5. Now only added when "legacy" is checked.
