Description			
Links to the pfSense for Azure marketplace page go to https://azuremarketplace.microsoft.com/en-us/marketplace/apps/netgate.netgate-pfsense-azure-fw-vpn-router which gives a 404.			
The areas that need updating are the Netgate® pfSense® for Azure links on the following pages:			
https://docs.netgate.com/pfsense/en/latest/solutions/azure-appliance/launching-an-instance-single-nic.html			
https://docs.netgate.com/pfsense/en/latest/solutions/azure-appliance/launching-an-instance-with-multiple-nics.html			

History

- % Done changed from 0 to 100

Looks like this was fixed. The corrected links point to

<https://azuremarketplace.microsoft.com/en-us/marketplace/apps/netgate.netgate-pfsense-plus-fw-vpn-router>, which is valid.
