

pfSense Packages - Feature #11266

Give an option to list restore point in "reverse" order/latest at the top.

01/19/2021 06:58 PM - Brandon Jackson

Description			
<p>I'm sure there are others like me that prefer and that are used to latest entries being at the top.</p> <p>Just today when I was looking to restore a config I accidentally restored a version newer than a meant to rather than the older one do to the list being backwards from what I am used to.</p> <p>I'm sure there is a simple option to implement this, but it's definitely is a low/no priority, but it would be nice.</p>
