Plus Target Version:	21.05	Affected Architecture:	
Release Notes:	Default		

Description

If you create a Limiter with a schedule but do not apply it to any firewall rules, it will create a cron job: "0,15,30,45 * * * * root /etc/rc.filter_configure_sync" which causes latency spikes.

Tested and working on 21.05/2.5.2. Cron job was not added until a rule contained the limiter, and the cron job was removed after the rule was removed.

Marking as resolved.
