

pfSense - Feature #1268

Allow mass renewing of certs

02/08/2011 02:12 PM - Brad Langhorst

Status:	New	Start date:	02/08/2011
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Certificates	Estimated time:	0.00 hour
Target version:	Future		
Description			
Im thinking of a UI that would allow checking off of all the certs to renew. filtering by expiration date would make a "select all" very handy in the case of lots of users.			

History

- Target version changed from Future to 2.5.0

#4 - 11/01/2019 03:17 PM - Jim Pingle

- Assignee deleted (Jim Pingle)
- Target version changed from 2.5.0 to Future
- Estimated time deleted (4.00 h)

I've investigated a couple different ways to do this and didn't really care for how any of them turned out. Trying to do this in the GUI is unlikely to work well, and a CLI script gets fairly complicated. Might revisit down the road, but unless someone wants to take this on in a PR, it isn't going to happen any time soon.
