Description

Page: https://docs.netgate.com/pfsense/en/latest/services/dns/rebinding.html

Feedback:

Small suggestion: The example in the "DNS Resolver" section correctly uses "example.com" as its sample domain. The example for "DNS forwarder" (which I think should be capitalized as well) uses "mydomain.com", which is an actual, working domain name, run by a registar. This should also be changed to "example.com", both because that's the right domain to use for examples, and because the examples for the DNS Resolver and the DNS Forwarded should be parallel.

History

#1 - 07/11/2022 07:53 PM - Jim Pingle

- Assignee set to Jim Pingle

#2 - 07/12/2022 07:30 AM - Jim Pingle

- Status changed from New to Resolved

- % Done changed from 0 to 100

Fixed, thanks!
