<b>Description</b>			
I created an interface group, and it would only let me use alpha characters in the name, it would be nice to use numbers also.

- Target version deleted (2.0)

##### #2 - 06/11/2011 03:20 PM - Jim Pingle

That is a limitation of the OS, not just the GUI. I know they cannot end in a number, and for simplicity's sake it's probably better to not let them have a number anywhere if it can't be at the end, since that is where people would expect to use them.
