

## pfSense - Feature #1630

### lagg ALTQ support

06/30/2011 02:19 AM - Matt Crook

<b>Status:</b>	Resolved	<b>Start date:</b>	06/30/2011
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Category:</b>	Traffic Shaper (ALTQ)	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			

#### Description

when you go to use the wizard "traffic\_shaper\_wizard\_multi\_lan.xml" when you are using lagg for your lan, it won't let me start the wizard, says "You do not have 1 of local interfaces!" when I clearly do. This issue doesn't happen when not using lagg.

Could you please fix this?

Best wishes,  
Matt

PS: problem lays as well with the "traffic\_shaper\_wizard\_multi\_all.xml" haven't tried any others

#### History

##### #1 - 06/30/2011 02:23 AM - Chris Buechler

- Category set to Traffic Shaper (ALTQ)
- Target version set to 2.1
- Affected Version set to 2.0

I don't believe lagg supports ALTQ which is why, it's not as simple as showing that interface.

Alright, right now, I have a band-aid solution of using pipes to limit the download speeds.... thanks for the quick reply, when will version 2.0 come out of RC and version 2.1 started?

PS: keep up the good work with the updates

##### #3 - 03/21/2012 11:30 AM - Chris Buechler

- Tracker changed from Bug to Feature
- Subject changed from Traffic Shaper wizard not seeing Lagg Lan interface to lagg ALTQ support
- Target version deleted (2.1)
- Affected Version deleted (2.0)
