**Description**

I have a fresh install of 2.0RELEASE\_AMD64 on ESXi

I'm trying to install...

SquidGuard  
lightsquid  
openvpn client export wizard.

**the GUI output is this(message is the same for all three packages)..**

-----

Beginning package installation for OpenVPN Client Export Utility...  
Downloading package configuration file... done.  
Saving updated package information... done.  
The OpenVPN Client Export Utility package is not installed.

Installation aborted.Backing up libraries...  
The OpenVPN Client Export Utility package is not installed.

Deletion aborted.Cleaning up... Failed to install package.

Installation halted.

## History

---

### #1 - 10/06/2011 09:11 AM - Scott Ullrich

PBI's are only available in 2.1 which is not readily available outside of IPV6 testing.. Where did you download this 2.0 image from?

### #2 - 10/06/2011 09:23 AM - Scott Ullrich

Think I found the issue - please try again

### #3 - 10/06/2011 09:32 AM - Fritz S

<http://files.chi.pfsense.org/mirror/downloads/pfSense-2.0-RELEASE-amd64.iso.gz>

### #4 - 10/06/2011 09:37 AM - Fritz S

ahh success, whatever you did fixed it! -- all three packages installed correctly...thanks so much
