Description

A minor issue with the Status: Captive portal: Test Vouchers tab

When all vouchers submitted for checking have time left (all green), the last line offers a summation of the minutes left in all of them.

However even if one of the vouchers in the list has expired (one or more red), the last line reads "Access denied!" (see attached screenshot).

History

- Status changed from New to Closed

Its by design that you will not be granted access to the portal if you submitted multiple vouchers and one of them is expired.
That is why the happening there.
