

pfSense - Bug #2234

Status: Traffic Graph - only shows interface's subnet

02/24/2012 01:39 PM - Anonymous

Status:	Confirmed	Start date:	02/24/2012
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Web Interface	Estimated time:	0.00 hour
Target version:		Affected Architecture:	All
Affected Version:	All		

Description

The Traffic Graph in Status menu does not show the aliased IP subnet addresses in the right panel list. It shows only the WAN/LAN interfaces IP subnets.

History

#1 - 02/24/2012 01:51 PM - Jim Pingle

- Priority changed from Normal to Low

The rate command that builds the data for that only supports showing one subnet at a time. So if it will display other subnets, that would require a drop-down menu to select the subnet to show.

#2 - 02/06/2016 04:58 AM - Chris Buechler

- Category set to Web Interface

#3 - 06/13/2016 09:34 PM - Chris Buechler

- Subject changed from Status: Traffic Graph - Do not show aliased IP addresses to Status: Traffic Graph - only shows interface's subnet

- Status changed from New to Confirmed

- Affected Version changed from 2.0.1 to All
