Traffic Shaper - Adaptive Bandwidth Management

03/26/2012 09:20 PM - John Banks

Status:	New	Start date:	03/26/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Traffic Shaper	Estimated time:	0.00 hour
Target version:			
Description			
There is a method to adjust the queue limits, so that unpredictable connections can be throttled down to avoid saturating the connection when the link bandwidth is lower than expected.
