

## pfSense - Bug #3576

### Console upgrade automatically skips hash check if no hash file found

04/05/2014 02:22 PM - Daniel Becker

<b>Status:</b>	Resolved	<b>Start date:</b>	04/05/2014
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	100%
<b>Category:</b>	Upgrade	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.2	<b>Affected Architecture:</b>	All
<b>Affected Version:</b>	2.1		

**Description**

When performing an upgrade via the console, if no hash file for the downloaded image is found at the expected location (image URL with .sha256 / .md5 appended), the upgrade process warns about this but then proceeds without giving the user an opportunity to abort.

#### Associated revisions

##### Revision 6d951458 - 10/20/2014 10:41 AM - Renato Botelho

Let user decide if he wants to proceed to the upgrade when sha256 fails to download. Fixes #3576

#### History

##### #1 - 10/19/2014 02:49 AM - Chris Buechler

- Target version set to 2.2

Replacing line 90 in rc.initial.firmware\_update, the "sleep(15)", with aborting the upgrade instead (making the sha256 validation mandatory under all circumstances) should resolve this.

##### #2 - 10/20/2014 10:50 AM - Renato Botelho

- Status changed from New to Feedback

- % Done changed from 0 to 100

Applied in changeset [6d9514581abc09a05f6d86633bbd0bb08aab2cf5](#).

##### #3 - 10/21/2014 04:59 PM - Chris Buechler

- Status changed from Feedback to Resolved
