

## pfSense - Bug #3601

### Assigning a PPP Interface failed

04/12/2014 03:53 PM - Tobias Kuehn

<b>Status:</b>	Closed	<b>Start date:</b>	04/12/2014
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Renato Botelho	<b>% Done:</b>	0%
<b>Category:</b>	Interfaces	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.2	<b>Affected Architecture:</b>	amd64
<b>Affected Version:</b>	2.2		

#### Description

Assigning a PPPs Interface via Webconfigurator fails. The Link [https://pfsense.localdomain/interfaces\\_ppps\\_edit.php](https://pfsense.localdomain/interfaces_ppps_edit.php) seems to end in an endless loop. No failure message appears.

Output Serial Console:

```
[2.2-ALPHA][root@pfsense.localdomain]/root(5): AT OK
AT OK
AT OK
```

Version:

```
FreeBSD pfsense.localdomain 10.0-STABLE FreeBSD 10.0-STABLE #0 35d2d8e(HEAD)-dirty: Sun Apr 6 08:43:20 CDT 2014

```

#### History

##### #1 - 07/22/2014 05:51 AM - Jim Thompson

- Assignee set to Renato Botelho

##### #2 - 07/22/2014 04:18 PM - Renato Botelho

- Status changed from New to Feedback

Can you confirm it's still happening on new snapshots? I couldn't replicate it on my test systems.

##### #3 - 09/22/2014 09:06 AM - Thiago Basilio

On new snapshots, interfaces\_ppps\_edit.php does not seems to enter on a endless loop. Clicking on edit icon, editing information and saving it works OK.

```

..
```

##### #4 - 09/22/2014 09:23 AM - Jim Pingle

- Status changed from Feedback to Closed

See #2433 - This is a duplicate of that one. There is a workaround in place on recent (~last 4 months) snapshots.
