Description

History

#1 - 04/30/2014 02:45 AM - RoNiN The Free Soul

Widget displays out of page bounds.

#2 - 04/30/2014 04:14 AM - Chris Buechler

- Status changed from New to Needs Patch

- Target version deleted (2.2)

- Affected Version changed from 2.1.2 to All

that's a general issue in a number of widgets and other screens in the GUI where you can make text long enough to scroll it off the sides. Rather than focusing our efforts internally on fixing these issues, we're eyeing a GUI replacement and won't put efforts into fixing minor cosmetic issues in the existing GUI. Patches welcome, though.
