| Target version: | 2.2 | Affected Architecture: | |
| Affected Version: | All | | |

Description

The protocol selection on the NAT edit page is missing some protocols that are available for selection on other pages (e.g., firewall rule edit page).

History

#1 - 06/13/2014 10:12 PM - Daniel Becker

I created pull requests for this a few weeks back:

[1208 for RELENG_2_1 #1218](#)

#2 - 06/13/2014 10:13 PM - Daniel Becker

I created pull requests for this a few weeks back:

- [1208 for RELENG_2_1](#)

- [1218 for master](#)

#3 - 06/13/2014 10:14 PM - Daniel Becker

Please advise if there is any concern with merging these. I'll happily modify the pull requests as necessary.

#4 - 06/20/2014 07:31 AM - Renato Botelho

- Status changed from New to Feedback

- Target version set to 2.2

- % Done changed from 0 to 100

Pull requests merged.

#5 - 08/14/2014 01:50 PM - Trond Vindenes

Checked on "2.2-ALPHA (amd64) built on Thu Aug 14 06:56:40 CDT 2014". NAT port forward rules is missing the protocols carp and pfsync, NAT Outbound rules is missing pim and ospf. This was compared to what protocols that were available in firewall rules. Not sure if those protocols are applicable to NAT though.

#6 - 08/22/2014 10:42 AM - Chris Buechler

- Status changed from Feedback to Resolved

can't or don't want to NAT or rdr the ones that aren't listed.
