

pfSense - Bug #3818

Gateway status terminology is inconsistent when it is "pending" or "unknown"

08/20/2014 04:31 AM - badon _

Status:	Resolved	Start date:	08/19/2014
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Gateway Monitoring	Estimated time:	0.50 hour
Target version:	2.3	Affected Version:	All
Plus Target Version:		Affected Architecture:	
Release Notes:	Default		

Description

On the dashboard Gateways widget a status of "unknown" will be shown, typically when a gateway is disconnected.

On the "Status: Gateways" page, "pending" will be shown:

https://192.168.1.1/status_gateways.php

A single terminology should be chosen, to avoid misunderstandings or miscommunication problems. I've attached screenshots to show the bug in action.

History

#1 - 02/02/2016 08:29 PM - Chris Buechler

- Category changed from Dashboard to Gateway Monitoring
- Status changed from New to Resolved
- Target version set to 2.3
- Affected Version changed from 2.1.x to All

this is addressed by the switch to dpinger, its status is sane and consistent.
