Description

Hello i will explain that bug on forum that topic

<https://forum.pfsense.org/index.php?topic=78795.0>

Please update latest pfsense turkish pot and pfSense.mo file on translation page.

History

#1 - 10/25/2014 12:04 AM - Chris Buechler

- Assignee set to Renato Botelho
- Priority changed from High to Normal
- Affected Documentation 0 added

not sure of status here, assigning to Renato for follow-up.

#2 - 12/12/2014 08:26 AM - Renato Botelho

- Status changed from New to Feedback
- % Done changed from 0 to 100

Done. We will have a new translation server available soon to make users able to translate again.

#3 - 12/22/2014 05:59 PM - Chris Buechler

- Status changed from Feedback to Resolved

#4 - 01/02/2015 01:53 AM - miraç öztürk

It did not resolve - switch to Turkish, edit and save a firewall rule. The "Apply" step of the sequence is not displayed - it goes straight to the "reloading in the background" thing and a close button.

Also recent forum thread <https://forum.pfsense.org/index.php?topic=86808.0>

My proposed fix: <https://github.com/pfsense/pfsense/pull/1441>

Actually it would be good to pass \$showapply=true explicitly in all calls to print_info_box_np() that are for things that must have the Apply button displayed. I am happy to do that in the next day or so, if someone agrees on the principle.

#6 - 01/15/2015 07:31 PM - Phillip Davis

That pull request has been merged, so this particular thing should be fixed in 2.2
