<b>Target version:</b>		<b>Release Notes:</b>	Default
<b>Plus Target Version:</b>			
<b>Description</b>			
<p>Would it be possible to add a new page that would allow an admin/user to change the order in which packages are ordered in the config.xml file? Packages startup based on the order they are installed. It would be nice to change this order within the web gui instead of changing them manually in the config.xml. If this can be done, can it be added to 2.1.x and all feature releases?</p>
