pfSense - Bug #4001

disconnected CP client no longer gets redirected to portal page

11/11/2014 06:13 PM - Chris Buechler

Status:	Resolved		**Start date:**	11/11/2014
Priority:	High		**Due date:**	
Assignee:	Renato Botelho		**% Done:**	100%
Category:	Captive Portal		**Estimated time:**	0.00 hour
Target version:	2.2			
Affected Version:	2.2		**Affected Architecture:**	

Description

On 2.2, after disconnecting a user from CP on status_captiveportal.php, their HTTP requests no longer are redirected to the portal page. Just sending SYNs that get no reply at all.

Revision b4e0f02b - 11/13/2014 10:50 AM - Renato Botelho

Make sure $cpzoneid is defined and use it to call pfSense_ipfw_Tableaction() and pfSense_ipfw_getTablestats(). Also fix fieldnames for captiveportal_hostnames. It should fix #4001

After investigate it a bit I noted IPs are not being added to ipfw tables, all are added as 0.0.0.0/32:

```
2.2-BETA][root@pfs22amd64.home]/root: ipfw -x 2 table 2 list
0.0.0.0/32 mac 08:00:27:69:67:b4 2001
```

To make sure if it is a problem on pfSense php module or ipfw itself I tried to manually add an IP to a table using ipfw CLI, issue is the same, probably one of our patches is broken. Maybe Ermal has an idea about it. Will dig a bit more tomorrow morning.

This is cosmetic Renato which has been fixed on next coming snapshots.

#5 - 11/13/2014 11:00 AM - Renato Botelho

- Status changed from Assigned to Feedback

- % Done changed from 0 to 100

Applied in changeset b4e0f02b89fa6b8e8b22f31ee4486df171ae5337.
