

pfSense - Feature #4205

unbound config option missing

01/12/2015 02:05 PM - Ansley Barnes

Status:	Resolved	Start date:	01/12/2015
Priority:	Low	Due date:	
Assignee:	Renato Botelho	% Done:	100%
Category:	DNS Resolver	Estimated time:	0.00 hour
Target version:	2.2.1	Release Notes:	Default
Plus Target Version:			

Description

The config option for "use-caps-for-id" is missing from the Advanced tab of the Resolver config page. It's not critical or anything, it can be placed in the advanced section of the general page, but it seems that the overall configuration philosophy implemented for unbound was a more menu-driven one, so I thought I would put in to have that as an option for the future and make it easier for users to enable it.

Associated revisions

Revision a771a6ae - 01/14/2015 05:34 AM - Warren Baker

Add support for 0x20 DNS random bit support. Fixes #4205

Revision a27f0c10 - 01/28/2015 09:33 AM - Warren Baker

Add support for 0x20 DNS random bit support. Fixes #4205
