

pfSense - Bug #4343

Firewall Log does not display logs for IGMP

01/29/2015 11:11 AM - Phillip Davis

Status:	Resolved	Start date:	01/29/2015
Priority:	Normal	Due date:

Target version:	2.2.1	Affected Version:	2.2
Plus Target Version:		Affected Architecture:	
Release Notes:	Default		

Description

I have a rule that that deals with multicast packets (to 224.0.0.0/4). There are lines in /var/log/filter.log for packets that match that rule, but they are not displayed on the Firewall Log GUI. It seems that IGMP protocol packets are not handled by parse_filter_line.

Proposed fix: <https://github.com/pfsense/pfsense/pull/1456>

#2 - 01/29/2015 11:15 AM - Phillip Davis

Note: In filter_log.inc parse_filter_line() there is also code that tries to handle protocol 112 CARP (around line 244). I suspect that the same issue (of not having a src and dst IP set) will cause any protocol 112 CARP packets in the firewall log to not display on the GUI.
