

pfSense - Bug #4423

NTP RRD graphing fails to recognise that offset can be negative

02/13/2015 05:11 AM - David Wood

Status:	Resolved	Start date:	02/13/2015
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	RRD Graphs	Estimated time:	0.00 hour
Target version:	2.3	Affected Version:	All
Plus Target Version:		Affected Architecture:	
Release Notes:	Default		

Description

The definition of the offset date source in /etc/inc/rrd.inc fails to recognise that offset can be negative, meaning all negative offsets are recorded as unknown.

The attached patch resolves the issue when /var/db/rrd/ntpd.rrd does not exist.

There is no obvious way of fixing the issue retrospectively. `rm /var/db/rrd/ntpd.rrd` at the command line following by 'Save' in the Settings tab of Status: RRD Graphs is recommended.

History

#1 - 11/11/2015 12:41 AM - Chris Buechler

- Category set to RRD Graphs

#2 - 02/06/2016 02:49 AM - Chris Buechler

- Status changed from New to Resolved

- Target version set to 2.3

- Affected Version changed from 2.2 to All

Merged, thanks David!
