

pfSense - Bug #4633

CARP not enabled upon creation of first CARP IP

04/18/2015 01:12 PM - Adam Thompson

Status:	Resolved	Start date:	04/18/2015
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	CARP	Estimated time:	0.00 hour
Target version:	2.2.3	Affected Architecture:	
Affected Version:	2.2		

Description

On a new system, after creating a new CARP VIP, the CARP Status gadget for the dashboard shows "Disabled".

Turns out you have to go to Status->CARP and click "Enable CARP" before CARP works.

This conflicts with standard practice of always using CARP VIPs, and nothing indicates that CARP needs to be "enabled", whatever that means.
