

pfSense - Bug #477

Swap usage graphic on dashboard is incorrect

04/04/2010 12:34 PM - Jim Pingle

Affected Version:	2.0		

Description

The swap usage indicator on the system information dashboard widget doesn't work. It always shows an empty bar, even when the text underneath indicates higher usage (e.g. '30%')

<http://forum.pfsense.org/index.php/topic,21675.0.html>

I confirmed it again just now by setting a VM to have very little RAM and also making a swap-backed memory disk and filling it with random data.
