

Bootstrap - Bug #4950

TCP flags on firewall_rules_edit.php need formatting help

08/17/2015 10:10 PM - Chris Buechler

Status:	Resolved	Start date:	08/17/2015
Priority:	Normal	Due date:

Target version:		Spent time:	1.50 hour
Description			
<p>The existing arrangement of TCP flags on firewall_rules_edit.php makes it reasonably clear what's what (attached). Pick the flags to match, out of some list of flags. When checking "any", the other boxes all disappear, since they're not relevant.</p> <p>The current bootstrap firewall_rules_edit.php shows a long list that doesn't visibly make sense. Also doesn't disable or hide the individual checkboxes when "any" is checked.</p>			

History

- Status changed from Confirmed to Resolved

Flag presentation (and advanced options in general) were horrible. Correct formatting has been restored, new javascript functionality provided, and an "Advanced options" button placed at the bottom of the form.

- Status changed from Feedback to Resolved

much, much improved on the advanced stuff in general.

this is fixed
