<b>Description</b>			
When deleting an item from an alias on firewall_aliases_edit.php, it's immediately removed, but then pops up a "Are you sure you want to delete this?" prompt. It's already deleted (and that's fine), doesn't matter if you hit OK or Cancel there. Just removing that prompt there is fine.

This is a bug in the Hortensius framework. I have filed an issue with Sjon but for now will just remove the confirmation prompt.
