

Bootstrap - Bug #5020

move firewall optimization and state tracking descriptions back to tips

08/26/2015 01:22 AM - Chris Buechler

Description			
two areas with the same kind of issue. 1) system_advanced_firewall.php, "Firewall Optimization Options". The options in the drop down were just "normal", "aggressive", etc. with the accompanying descriptions below the drop down. Should go back that way, the drop down ends up way too wide otherwise, and the description of a config option shouldn't be in its config selection. 2) firewall_rules_edit.php, "State type". Should go back to "keep state", "no state", "sloppy state", "synproxy state" with the remaining text below

the firewall_rules_edit.php part is good.

The system_advanced_firewall.php part doesn't seem to ever show the tips the way firewall_rules_edit.php does.

#4 - 09/01/2015 12:25 PM - Steve Beaver

Would be helpful to have one ticket per page when possible. Can we resolve this one and make a new ticket for system_advanced_firewall.php ?

#5 - 09/01/2015 12:25 PM - Steve Beaver
