

Bootstrap - Bug #5022

creating CA doesn't actually create the CA

08/26/2015 01:26 AM - Chris Buechler

Status:	Resolved	Start date:	08/26/2015

Fixed #5022

History

#1 - 08/27/2015 07:21 AM - Steve Beaver

- Status changed from Confirmed to Feedback
- Assignee changed from Steve Beaver to Chris Buechler
- Target version set to 2.3

Programmer had set form action to GET when logic uses POST.

Page now creates CAs although I sometimes see:

```
openssl library returns: error:0D07A098:asn1 encoding routines:ASN1_mbstring_ncopy:string too short
```

depending on the country chosen. (US => error, GB => no error) Please advise.

#2 - 08/27/2015 09:24 AM - Jim Pingle

Country code drop-down should be using the country code as the value, seems to be numeric now, so any of the 0-9 choices probably fail. GB passes because it's later in the list. The drop-down is new, it used to be text entry.

#3 - 08/27/2015 09:43 AM - Jim Pingle

Opened [#5043](#) for that separate issue with the drop-down.

#4 - 08/28/2015 03:00 PM - Jim Pingle

- Status changed from Feedback to Assigned

When pressing Save, the screen stays on "system_camanager.php?act=new" rather than returning to the CA list. The CA is added properly, it just doesn't redirect away after as it should. The redirect is OK when creating a certificate.
