This page has not been converted to bootstrap yet but it should be quick to do.

Could I get some help setting up traffic shaper so I can test it, or a piece of config.xml I can drop in?

check out https://bootstrap-test1.pfmechanics.com/status_queues.php

Can browse around in another tab to the same box to make the traffic vary.

lost power on the host running those and they weren't set to auto-boot. Fixed that and booted them back up.

not sure where that is to test

#10 - 09/21/2015 10:58 AM - Steve Beaver

- Assignee changed from *Steve Beaver* to *Chris Buechler*

The converted file is in the repo, but I just looked it over and there is no way it is going to work, so hold off please and I will work on it.

status_queues now correctly displays the queue status (duh!) Test instance https://bootstrap-test1.pfmechanics.com/status_queues.php demonstrates.

#13 - 09/21/2015 04:36 PM - Chris Buechler

- Status changed from *Feedback* to *Resolved*
- Target version set to *2.3*
- Affected Version set to *2.3*

conversion looks good. Stats seem fine, needs a more thorough test case than what we have there which I'll setup and open new ticket(s) if there are any issues.
