

Bootstrap - Bug #5065

system_authservers.php - No LDAP server form fields are saved

09/01/2015 01:51 PM - Jim Pingle

Status:	Resolved	Start date:	09/01/2015
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	2.3	Spent time:	1.00 hour
Description			
Create an LDAP entry on system_authservers.php, enter some info, press save. The only thing retained is the name, no other values stay or can be found in config.xml.			
RADIUS works fine on the same page.

- Assignee changed from Steve Beaver to Jim Pingle

Framework method setDisable() seems to prevent the input element from being submitted, as well as disabling it.

Converted to jQuery
