

Bootstrap - Bug #5097

system_certmanager.php - SAN formatting changes when input errors exist

09/03/2015 11:21 AM - Jim Pingle

Status:	Resolved	Start date:	09/03/2015
Priority:	Normal	Due date:	
Assignee:	Jim Pingle	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	2.3	Spent time:	2.00 hours
Description			
When adding a certificate, if SANs are present and an input validation error occurs, the formatting changes:			
During initial add:			
pqU5i9t.jpg			
After input validation error:			
699DCbl.jpg			
Clicking "Add" with the error formatting duplicates the multiple set of controls rather than just the type/entry boxes.
