

Bootstrap - Bug #5148

interfaces.php DHCP field display issues

09/15/2015 03:37 PM - Chris Buechler

Description			
<p>The DHCPv4 fields on interfaces.php should behave more like 2.2.4. Lot of noise there that was hidden previously. Like it shows only Hostname, Alias IPv4 address, and Reject Leases From unless the Advanced box is checked.</p> <p>Where "Config File Override" is checked, only that field appears, all the other advanced options are hidden because they're no longer relevant.</p>
