

## pfSense - Feature #519

### Ability to set growl client's registered name and notification name

04/17/2010 01:50 PM - Blake Skinner

<b>Status:</b>	Resolved	<b>Start date:</b>	04/17/2010
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Notifications	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	2.0		
<b>Description</b>			
At the moment the Growl notification system in PFSense registers with the growl service using the default name 'PHP-Growl' and sends all notifications using the name 'pfSense growl alert'. It would be nice to be able to customize both of these options.

#### History

##### #1 - 04/17/2010 01:51 PM - Scott Ullrich

- Category set to Web Interface

- Target version set to Future

##### #2 - 04/18/2010 03:04 PM - Chris Buechler

- Category changed from Web Interface to Notifications

- Status changed from New to Feedback

- Target version changed from Future to 2.0

- Affected Version set to 2.0

Blake: please test snapshots dated April 18 or newer and report back if this is resolved.

##### #3 - 04/18/2010 03:24 PM - Blake Skinner

I tested the latest snapshot and both the registration name and the notification name appear to be properly displayed by the Growl server.

##### #4 - 04/18/2010 04:33 PM - Chris Buechler

- Status changed from Feedback to Resolved

Great, thanks.
