

Bootstrap - Bug #5233

ntp_status.widget.php broken

10/01/2015 10:18 PM - Chris Buechler

Status:	Resolved	Start date:	10/01/2015
Priority:	Normal	Due date:	
Assignee:	Chris Buechler	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2.3	Spent time:	0.00 hour
Description			
Function getServerDateItems was removed, which breaks the widget and the entire web interface if you have that widget enabled. reported here: https://forum.pfsense.org/index.php?topic=100279.0:topicseen That's among a few functions that no longer exist in that widget, not sure of the intent there.

- Assignee changed from *Steve Beaver* to *Chris Buechler*

The NTP widget has been fixed by adding the two missing PHP functions.

In researching this, I found a FIXME: in the dashboard code that seems to refer to providing an "Add widget" button. I'll create a separate ticket for this.

- % Done changed from 0 to 100

Applied in changeset [pfsense:1bde731214856aa3c5fba3547b69e9488d7653cc](https://pfsense.org/changeset/pfsense:1bde731214856aa3c5fba3547b69e9488d7653cc).

#3 - 10/03/2015 08:05 AM - Phillip Davis

It does not crash anything now. I will log a separate ticket for format/display stuff.

#4 - 10/06/2015 02:29 AM - Phillip Davis

The widget display format is bug <https://redmine.pfsense.org/issues/5247>

IMHO this bug 5233 about it being completely broken can be closed.
