Review /etc/ttys for serial console

11/03/2015 05:44 AM - Renato Botelho

Status:	Resolved	Start date:	11/03/2015
Priority:	Normal	Due date:	
Assignee:	Renato Botelho	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2.4.0		
Description			
FreeBSD current and stable/10 /etc/ttys now defaults to 3wire on serial tty setup, this means we don't need to force uart to move serial to 2nd port. review changes done in /etc/ttys of installed system and also on memstick image			

History

#1 - 11/17/2015 11:48 AM - Jim Thompson

We still need to set which serial port the console is on.

#2 - 01/08/2016 06:58 AM - Renato Botelho

- Target version changed from 2.3 to 2.4.0

Leave it as is for now, after 2.3 we are going to move changes to FreeBSD-src repo instead of overwriting files direct from main repo and at this point we can refactor it

#3 - 11/18/2016 07:16 AM - Renato Botelho

- Status changed from New to Feedback

- % Done changed from 0 to 100

Done during 2.4 alpha

#4 - 12/02/2016 09:00 AM - Jim Pingle

- Status changed from Feedback to Resolved

Consoles are working on all 2.4 versions.
