The Gateways widget in 2.2.5 refreshes the RTT, Loss and Status every 10 seconds. Is that what the OP means by "dynamically update"? If so, then this is not a feature request.

In 2.3-ALPHA the 10 second refresh does not happen, at least not for me when I tested just now.

I guess that this is actually a bug report against 2.3 and Bootstrap?

#3 - 11/18/2015 11:26 AM - Jim Pingle

- Tracker changed from Feature to Bug
- Project changed from pfSense to Bootstrap
- Category deleted (Dashboard)
- Status changed from New to Confirmed
- Assignee set to Steve Beaver
- Target version set to 2.3
- Affected Version set to 2.3
- Affected Architecture All added
- Affected Architecture deleted ()

Yes, this is definitely a regression, the widget updated dynamically before.

#4 - 11/18/2015 12:08 PM - Steve Beaver

- Status changed from Confirmed to Feedback
- Assignee changed from Steve Beaver to Jim Pingle

Fixed.

I will make the timer configurable and do the same to the IPSec widget shortly.

#5 - 11/18/2015 12:10 PM - Steve Beaver

- % Done changed from 0 to 100

Applied in changeset [pfsense:626db846052d79c8c154cc6f97f0ad4171bf1e13](https://pfsense.org/commit/626db846052d79c8c154cc6f97f0ad4171bf1e13).

- Status changed from Feedback to Assigned

- Assignee changed from Jim Pingle to Steve Beaver

Updates OK but now it doesn't display the monitor IP.

#7 - 11/18/2015 09:02 PM - Phillip Davis

Works for me - thanks.

#8 - 11/18/2015 09:16 PM - Phillip Davis

I should always look for regressions also! JimP is correct - monitor IP has gone AWOL, even on first display.

#9 - 11/18/2015 09:34 PM - Phillip Davis

<https://github.com/pfsense/pfsense/pull/2086>

\$display_type var setting needs to be earlier.

#10 - 11/18/2015 11:38 PM - Phillip Davis

and I just added another commit to that PR 2086 to remove some duplicated code that had snuck into master somewhere a while ago in the integration process.
