

## pfSense - Bug #5943

### rc.php\_ini\_setup should filter out duplicate extensions.ini values as is done during an upgrade

<b>Affected Version:</b>	2.3	<b>Affected Architecture:</b>	All

#### Description

In some rare edge cases (e.g. corrupted pkg db, forced pkg reinstall) duplicate entries can end up in /usr/local/etc/php/extensions.ini. These are cleaned up on upgrade but it also makes sense to do so during the php.ini setup process to avoid errors at other non-upgrade times.

I have a fix pending, ticket is for tracking purposes.

#### Associated revisions

##### Revision 1c225a98 - 03/02/2016 10:41 AM - Jim Pingle

Ensure the extensions.ini has no duplications before setting up php.ini. Fixes #5943

#### History

- % Done changed from 0 to 100

Applied in changeset [1c225a98555d1bfb7194e56d2283abfbb6b74663](#).

##### #2 - 03/02/2016 11:20 AM - Jim Pingle

- Status changed from Feedback to Resolved

- % Done changed from 100 to 0

Works. Replicated the problem scenario with the code in place, no more errors.
