pfSense - Bug #6050

services_dhcp.php: "Network booting" section default style is confusing/easy to overlook

03/31/2016 03:09 PM - Jim Pingle

Status:	Resolved		**Start date:**	03/31/2016
Priority:	Normal		**Due date:**	
Assignee:	Renato Botelho		**% Done:**	100%
Category:	DHCP (IPv4)		**Estimated time:**	0.00 hour
Target version:	2.3.2			
Affected Version:	2.3.x		**Affected Architecture:**	

Description

On services_dhcp.php the "Network Booting" options are in their own separate section which defaults to collapsed. Unlike the other areas on the page that have their options hidden behind an "Display Advanced" type button, the Network Booting section has to be manually expanded using the button in the section header.

Perhaps it could stay its own section but have its options hidden using a button similar to the other areas of the page for consistency.

Fix #6050 DHCP - provide Network Booting display/hide advanced button

This one moves the "Network Booting" above the "Additional BOOTP/DHCP Options". That allows "Network Booting" to be a Display/Hide Advanced group of buttons just like TFTP, LDAP etc. (without a special section header) and for "Additional BOOTP/DHCP Options" to come last on the page.

#2 - 07/08/2016 10:18 PM - Chris Buechler

- Target version changed from 2.3.2 to 2.4.0

#3 - 07/09/2016 02:37 AM - Phillip Davis

I have made 2 PRs with different ways to organize the page:
https://github.com/pfsense/pfsense/pull/3051
https://github.com/pfsense/pfsense/pull/3052

Pick one, if you like one, and close the other.

This is bit of UI crud that could easily go into 2.3.2 if you are happy.

#4 - 07/13/2016 05:02 PM - Renato Botelho

- Status changed from New to Feedback

- Assignee changed from Steve Beaver to Renato Botelho

- Target version changed from 2.4.0 to 2.3.2

- % Done changed from 0 to 100

Merged, thanks Phil!   *2/2*

#5 - 07/13/2016 06:22 PM - Chris Buechler

- Status changed from Feedback to Resolved

- Affected Version changed from 2.3 to 2.3.x

Looks good, thanks Phil
