

## pfSense - Bug #6067

**interfaces.php: auth\_server\_shared\_secret and auth\_server\_shared\_secret2 are set to 'number' when they should be 'text'**

### Description

On interfaces.php the auth\_server\_shared\_secret and auth\_server\_shared\_secret2 fields should allow text, not only numbers, but the input types are set to number, which unnecessarily restricts them.

To me, I have a fix to push.
