<b>Affected Version:</b>	All	<b>Affected Architecture:</b>	All

#### Description

The IKEv2 client on iOS 9 and OS X El Capitan wants strongSwan to use leftsendcert=always when using a manual configuration. This has been fixed in a previous issue for IKEv2/EAP profiles, but not for IKEv2/RSA profiles.

Previous issue: <https://redmine.pfsense.org/issues/5353>
