

pfSense - Bug #6088

RADIUS WebUI - Deny Config Write is not honored

04/07/2016 02:47 AM - Phillip Hernandez

Status:	Resolved	Start date:	04/07/2016
Priority:	High	Due date:	
Assignee:	Jim Pingle	% Done:	100%
Category:	Web Interface	Estimated time:	0.00 hour
Target version:	2.3.1	Affected Architecture:	
Affected Version:	All		

Description

After authenticating with a user that has been put into a group with "Deny Config Write" it is not enforced. If you create a local user in that same group it is enforced as expected.

Associated revisions

Revision 0ef6fddc - 04/07/2016 09:08 AM - Jim Pingle

Teach get_user_privileges how to retrieve groups from LDAP/RADIUS, and have getUserEntry fall back to a format that will allow it to function. Net result is that now userHasPrivilege() will respect remote groups as well as local groups, which fixes #6088

Revision 100d0f77 - 04/07/2016 09:10 AM - Jim Pingle

Teach get_user_privileges how to retrieve groups from LDAP/RADIUS, and have getUserEntry fall back to a format that will allow it to function. Net result is that now userHasPrivilege() will respect remote groups as well as local groups, which fixes #6088

History

#1 - 04/07/2016 02:54 AM - Phillip Hernandez

For clarity, when the user is authenticated with RADIUS and the deny config write is set it is not enforced.

#2 - 04/07/2016 07:53 AM - Jim Pingle

- Status changed from New to Assigned
- Assignee set to Jim Pingle
- Target version set to 2.3
- Affected Version set to 2.3

Confirmed, working on a fix now.

#3 - 04/07/2016 08:11 AM - Jim Pingle

- Target version changed from 2.3 to 2.3.1

Looking at the code, this is not a regression. It will be good to fix, but the fix is non-trivial so it's better to hold it back for the next point release.

#4 - 04/07/2016 09:20 AM - Jim Pingle

- Status changed from Assigned to Feedback
- % Done changed from 0 to 100

Applied in changeset [0ef6fddce9a48e7e1abac04c5dc59c0d7a99e83d](#).

#5 - 04/07/2016 11:45 AM - Phillip Hernandez

I wanted to confirm that this works. I created a custom patch to apply to my pfsense boxes that are running 2.2.6 and Deny Config Write is now honored.

Thanks

#6 - 04/07/2016 12:17 PM - Jim Pingle

- *Status changed from Feedback to Resolved*

Thanks for the additional testing

#7 - 05/16/2016 02:49 PM - Chris Buechler

- *Affected Version changed from 2.3 to All*
